Abstract:

Many students still face difficulties in reading the Qur'an correctly and properly. Mentoring through the *talaqqi* method can help them correct mistakes directly and improve their understanding of Qur'anic recitation. The purpose of this mentoring is to improve the Qur'anic recitation of Darussalam students. The method used is qualitative, with data collection conducted through one month of observation and documentation. The analysis results show that Qur'anic learning in Gondosuli Village, Pakuniran District, has significantly improved students' reading ability through the *talaqqi* method. Darussalam students have shown progress in reading the Qur'an, as well as improvements in pronunciation during recitation. Thus, the *talaqqi* method can be concluded as a highly effective approach to Qur'anic learning, particularly in guiding students to read more fluently, correctly, and in accordance with proper rules. In the future, this method can continue to be developed with more innovative teaching techniques to further optimize students' recitation quality.

INTRODUCTION

Reading the Qur'an is obligations that must be fulfilled carried out by every person who is Muslim . The Qur'an is a holy book that contains the perfect word of Allah SWT . (Putra et al., 2024) A institution education follow responsible answer in the process of educating children as participant educate in read and memorize the Qur'an. Therefore that , a lot schools that provide facility in support the participants educate in reading and memorizing the Qur'an. (Ali Mahfud & Sobar Al Ghazal, 2022) Between tasks that require extreme seriousness and extra care from every educator is task look for method best For teach the Qur'an to participant educate , because teach the Qur'an to they is one of basically teachings Islam , and one of them Al-Qur'an Educational objectives . (An et al., 2023) Ability reading the Qur'an is a skills a individual For reading the Qur'an with good and right in accordance with applicable rules . For understand Contents from a meaning , then somebody required moreover formerly For reading , as well as with the Qur'an. To understand a the stated intent and purpose in the Qur'an as human , guidelines life so somebody must read it moreover formerly .

Talaqqi literally means meeting directly. This term is found in the methodology of teaching the Qur'an. A method of teaching the Qur'an directly is the talaqqi method, meaning that the teaching of the Qur'an is received from generation to generation, from a teacher who teaches directly by word of mouth to his students. Each method certainly has advantages and disadvantages. The advantage of this method is that teachers are more free to monitor the development of their students directly. (An et al., 2023) In addition, children can directly see the teacher's lip movements in pronouncing makhoriul huruf because they are directly facing each other. Meanwhile, Talaqqi is one of the teaching methods inherited from the Prophet Muhammad SAW which continues to be practiced by everyone after the Prophet Muhammad SAW, his companions, tabi'in, scholars even today, especially for Arab regions such as Mecca, Medina and Egypt. (Ahmad Hariandi, 2019) The talaqqi method also has advantages, namely, to maintain the correctness of the reading of the Qur'an, corrected directly by the teacher if there is a mistake when reading the Qur'an, knowing and understanding more about how to read and memorize according to the rules of tajwid, very suitable for motivating and training students to memorize (Attamimi et al., 2023) .

mentoring aims to improve the ability of students in reading the Qur'an with the talaqqi method at the students of the Darussalam Mosque, Gondosuli Village, Pakuniran District, Probolinggo Regency. In addition, this mentoring can also increase the awareness and understanding of students about the importance of reading the Qur'an correctly and accurately, this mentoring is expected to help improve the quality of religious education in Gondosuli Village.

According to Endah Setianing Mawarni, et al in their work entitled "The Use of Talaqqi Method Through Habituation to Improve the Ability to Read the Quran in

Grade 3 at Kambang Sari State Elementary School, Alian District, Kebumen" who both researched the talaqqi method to improve the ability to read the Quran in students. Research results application method divorce based habituation considered successful deep improve ability read the Qur'an. In addition to ability reading the Qur'an, memorizing letter short students also increased . (Mawarni et al., 2022)

Whereas in Muhammad Arsyad Suriansyah's research entitled "Implementation of the Talaqqi and Musyafahah Methods in Improving Ability Reading the Qur'an Students " the similarities that is You're welcome research about method talaqqi For increase ability Reciting Al- Qur'an students . The results of study This show that score results Study the has beyond KKM limit that has been set . Response from implementation method This student seen enthusiasm and increasing Power pull student For learning tajweed. (Suriansyah, 2020)

The research written by Devi Nurdiana Putri, et al. in her paper entitled "Application of the Talaqqi Method in Learning Al-Qur'an Memorization in Early Childhood" has similarities, namely both researching the talaqqi method to improve the ability to read the Qur'an of students. Based on the results of the research that has been conducted, it is known that the application of the talaqqi method in learning Al-Qur'an memorization at TPA Fafirruu Ilallah Surabaya includes planning, implementation, and evaluation. Planning covering base election method as well as preparation implementation method so that it is not applied incorrectly to children . (Putri & Romadlon, 2022)

Talaqi Method hold a very important role important in learning the Qur'an, namely can increase ability somebody in read and memorize the Al-Quran with Correct in accordance Tajweed rules . Talaqqi is techniques that have been There is since the time of the Prophet Muhammad and still used until moment This is . This is proven effective in guard authenticity reading and make it easier for teachers to monitor and guide development student in a way directly . Although a number of study has show that method This can increase understanding reading and quality Study students , still there is challenge in its implementation , such as limitations time and environment lack of education support . Therefore that , teaching learning the Qur'an with method Tarakki important For increase quality religious education and teaching student good and correct habits in reading the Qur'an (Herwati & Najah, 2023) .

RESEARCH METHOD

Our form of community service is by providing assistance in learning the Qur'an and tajwid for children who study the Qur'an at the Darussalam mosque in Pakes hamlet, Gondosuli village, Pakuniran district, Probolinggo regency. This assistance aims to improve the ability to read the Qur'an with the talaqqi method for students. With 30 students as subjects, namely 16 women and 14 men with assistance

using the talaqqi method for 1 full month. After that, the students' ability to read the Qur'an was measured before and after assistance.

RESULTS AND DISCUSSION

Devotion to community service (PKM) we carried out at the Darussalam mosque in the hamlet package subdistrict nail polish regency Probolinggo . The discussion raised in the PKM (community service) activity to society) namely containing a number of descriptive with results activity mentoring Study teach with method talaqqi , which has been implemented during the KKN program (college) Work real) is implemented . In the section results discussion This should the most part from the entire body of the article , which each results discussion must accompanied and supported by adequate data , in meaning discussion results from program activity assistance Study teach containing about the answer that has been stated previously in section introduction and complete with supporting data like images (documentation) or supporting bodies other .

Reading the Qur'an after Maghrib is a tradition that still exists carried out at the Darussalam village mosque gondosal . There is two group student that is group Iqro and Al-Qur'an. The students in a way compact reading the Qur'an together. However , we found matter different which one they are Reciting Al- Qur'an with different rhythm and makhorijul messy letters . So from That with existence mentoring with use method talaqqi this is expected student can show existence change in reading the Qur'an, Based on results analysis above , we do 2 stages learning to be more effective that is with teach the science of tajwid first first so that students own strong foundation in reading the Qur'an with good and right . After that , we continued with practice learning that has been obtained with method talaqqi to improve skills student in reading the Qur'an with more smooth and orderly .

First , we divide a number of which group our KKN group consists of from 10 people. Stages learning started from give material about base the science of tajweed such as nun sukun / tanwin signs , mim sukun / tanwin , mad law and others . We explain materials the with clear and sure student understand with explanation the material we present . The material above we wrote on the board and students required take notes to make it easy understand and remember material Not only that . writing , santri given task every the day For know how much Far understanding gained . Students very enthusiastic with Exposure the material we provide . Which previously they No get material additional and only just just read the Quran . The next stage to be continued with practice reading the Qur'an with makhorijul correct letters after we invite you to do that they study the Koran One one by one (method) talaqqi) then we ordered they For look for reading tajwid in the Qur'an , for example ; look for example reading the law is dead, mim dead etc. So that the previous Tajweed material they can No is lost in vain . While students who read iqra ' only read reading contained in the iqra ' , after that's what we teach makhorijul letter start from letter alif to yes ' .

We make sure they to pronounce letters hijaiyah with appropriate in accordance rules tartila .

Figure 1. Application of the Talaqqi Method Students of Darussalam Mosque

The method of talaqqi is effective method for students who are still deep level study reading the Quran, because makes it easier for us to analyze how much fluent and fluent student deep reading the Quran. Like statement above , students study one by one to us. With Thus , we know in a way directly progress students . We can also directly fix mistakes student deep read the Quran and can give instructions to students . We hope with existence application method divorce this can help student more skilled and fluent deep reading the Quran.

With existence method talaqqi this , improve potential Darussalam students in read the Qur'an and be able to remember letters hijaiyah , meaning from potential Reciting Al- Qur'an that is student Can Reciting Al- Qur'an with use Tajweed guidelines that have been studied , sounded letters in the word in accordance with place makhojnya , knowing error in time read and be able to justify Alone without reminded Ustad and Ustadzah . Besides That When there is time our free time also teaches to they prayers and ways pray well and correctly , we command they pronounce readings pray start from intention until tahiyyat end and a little bit practicing prayer movements to they so that they get knowledge addition .
